

I am the School Nurse at the Delevan Elementary School. I would like to say no to the new 585 area code. I already spend too much time on the telephone trying to get ahold of parents. Some of our 492 phone numbers would need the 585 exchange and some wouldn't. It's going to take trial and error to find out which ones. I don't need to take more time away from our students than I already have to. My district is already in 3 counties we don't need to be in 2 area codes. I feel the whole idea is bad. Also, I don't believe that someday we won't be charged for making long distance calls. Thank you for your time.
